

THE CLASS OF '96.

Exercises at Kamehameha School
Last Night.

Illness of Dr. Hyde Causes a Change
in Program—Interesting Essays
by Graduates.

At the graduating exercises at the Kamehameha School for Boys last night, after the Rev. Stephen Desha had delivered the invocation the Kamehameha Choir sang, and owing to the illness of the vice-president, Rev. C. M. Hyde, instead of his address the salutatory and an essay on "The Building of Roads a Factor in Civilization," was delivered by E. L. Jones.

Miss Richards then sang a very pretty piece called "Colleen Asthore," and carried away the house and a floral tribute. R. M. Duncan delivered an able address on "Hawaiian Mythology" and after other able addresses J. A. Smith delivered the valedictory.

The program in full is given below. The hall was beautifully decorated and the class motto, "Make the Ideal Real," was conspicuous.

REV. DILLON'S TALK.

Will Speak Tonight on Love,
Courtship and Marriage.

One of the most humorous speakers Honolulu people have listened to in years is Rev. Benjamin Dillon. Three times during the present week the speaker has had his audience at the Christian Church, Alakea street, convulsed with laughter.

Tonight he will lecture on the popular subject "Love, Courtship and Marriage," from the standpoint of a man who has had some experience and who has been feeling the bumps on the heads of aspirants for the presidency for fifteen years past. It is openly stated that Mr. Dillon handles this particular subject with a great deal of dexterity.

The lecture will begin at a quarter to eight this evening, and the admission fee will be twenty-five cents.

Military Appointments.

Commissions have been issued to Dr. C. B. Cooper as regimental surgeon, with the rank of Major; Dr. James T. Wayson to be surgeon of the First battalion, with rank of Captain, and Dr. R. P. Myers to be surgeon of the Second battalion, with rank of Major.

In France the doctor's claim on the estate of a deceased patient has preference over all others.

A Model Plant is not complete without Electric Power, thus dispensing with small engines.

Why not generate your power from one CENTRAL Station? One generator can furnish power to your Pump, Centrifugals, Elevators, Pumps, Railways and Hoists; also furnish light and power for a radius of from 15 to 26 miles.

Electric power being used saves the labor of hauling coal in your field, also water, and does away with high-priced engineers, and only have one engine to look after in your mill.

Where water power is available it costs nothing to generate Electric Power.

THE HAWAIIAN ELECTRIC COMPANY is now ready to furnish Electric Plants and Generators of all descriptions at short notice, and also has on hand a large stock of Wire, Chandeliers and Electrical Goods.

All orders will be given prompt attention, and estimates furnished for Lighting and Power Plants; also attention is given to House and Marine Wiring.
